**MAKE LIVERPOOL  
 GREAT AGAIN.**

# MAKE LIVERPOOL GREAT AGAIN

Remember In September

**VOTE 1 PETER RISTEVSKI**

The **Liverpool Way of Life** is under attack while career politicians from the major parties destroy our city with overdevelopment.

We will take our city back from the developers and **return power to the Liverpool residents**, where it belongs.

It's time to  
**PUT LIVERPOOL FIRST**  
and bring in a new era of faith and family.

Together, we will save Liverpool

**VOTE 1 PETER RISTEVSKI**  
where I will..

### Fight Against Overdevelopment

- i** Overdevelopment leads to traffic problems.
  - i** Overdevelopment means overcrowded hospital emergency rooms.
  - i** Overdevelopment means overcrowding in classrooms where your children get a second class education.
  - i** Overdevelopment means smaller streets.
  - i** Overdevelopment means smaller backyards and less parks.
  - i** Overdevelopment means your property values are not increasing like other areas.
- ★ It's time for other Councils to do the heavy lifting. Liverpool has done enough.**

### Stop the sell-off of Council land to developers and gambling clubs

- i** The Liberal mayor wants to sell Council land to Moorebank Sports Club but won't tell us the price. Can Moorebank Sports Club be trusted with Council land when it was fined over \$300,000 for putting its staff under pressure to encourage Liverpool ratepayers to spend more than they had intended on poker machines?
  - i** The Liberals want to sell our parks to developers. Families need open space to develop and help encourage a healthier lifestyle.
- ★ Rather than sell Council property, I will reinvest and upgrade existing facilities. Once you sell Council land, we can never get it back.**

### Invest more in roads, parks and cleaner streets

Is your street getting its fair share?

- i** The Liberal mayor has employed his Liberal friends costing the rate payers over \$4.7 million every year. That money should go into roads.
  - i** Liverpool ratepayers pay one of the highest rates and is looking at a historic deficit of \$30m this year under the Liberal mayor.
  - i** The Liberal mayor is not fit to manage a council budget of \$250 million when he can't manage his own affairs as his own company was placed into liquidation for not paying its taxes.
  - i** The Liberal Mayor has just fired the CEO. That's 11 CEOs under his tenure costing ratepayers nearly \$5 million which could've been put into better roads.
- ★ I will cut through this waste so there is more money for roads, parks, and cleaner streets.**
